[C]irca tractatum de ente et essentia Queritur primo utrum ab ente sumatur nomen essentie

Arguitur primo quod non quia multa dicuntur essentia que essentia non habent ut sunt privationes etc. Secundo essentia prior est ente ergo nomen entis non sumitur ab ente. Tertio essentia habet se ad ens sicut abstractum ad concretum et sicut ad compositum sed concretum denominatur abstracto [illegible] a concreto et compositum a simplici ergo [illegible] essentia ad esse quam ad ens eo quod essentia et esse constituunt ens ergo magis dicitur eo quod nomen essentie sumatur ab esse quam ab ente.

In oppositum est doctor sanctus in principio tractatus pro cuius ad questionem sciendum primo quod parvus error in principio magnus est in fine sicut dicitur in primo celi et mundi sed quia ens et essentia sunt illa que primo ab intellectu nostro [illegible] ut dicit Avicenna in sua metaphysica ideo ne ex eorum ignorantia nos errare contingat ad difficultatem aperiendam composuit doctor sanctus hunc tractatum in quo ostendit quid nomine et entis et essentie significatur et quomodo in diversis inveniantur huiusmodi et quomodo se habent ad intentiones logicales scilicet ad genus speciem et differentiam. **Sciendum secundo** quod [illegible] sunt nobis notiora ut dicitur primo physicorum ideo ex quibus devenimus in cognitionem simplicium et ex posterioribus in priora devenimus ut a facilioribus facilior fit doctrina et quia ens est magis compositum quam essentia [illegible] nominat compositum ex esse et essentia ideo a significatione entis ad significationem essentie procedendum est. **Sciendum tertio** ut dicit philosophus metaphysice ens ut est per se ut recitat sanctus thomas in textu dividitur dupliciter. Uno modo dividitur in decem genera. Alio modo ut significat veritatem propositionum. Horum autem modorum [illegible] differentia est quia secundo modo potest dici ens omne id de quo potest formari propositio affirmativa dato quod in esse nihil ponat. Et hoc modo negationes privationes etiam dicuntur entia. Dicimus enim quod affirmatio opposita est negationi et quod cecitas est in oculo. Sed primo modo non potest dici aliquod ens nisi quod in re aliquid ponat. Unde hoc modo cecitas et huiusmodi non sunt entia. **Tertio notandum** sit prima conclusio nomen essentie sumitur ab ente reali et non ab ente rationis. Patet hoc quia dicit Averroes quinto metaphysice quod ens dictum in decem predicamenta est quod significat essentiam rei. Item forma et universale omne nomen abstractum sumitur a toto concreto. Sed concretum essentie est totum et concretum ergo nomen essentie sumitur ab ente. Secundum patet in primum rationem ante oppositum.

Secunda Conclusio Nomen essentie non sumitur ab esse scilicet quia essentia non est in suo esse ut in suo toto ut comparatur ad ipsum esse sicut ad suum totum scilicet omne abstractum includitur in illo a quo abstrahitur per intellectum agentem ergo nomen essentie non sumitur ab esse Ex prima conclusione sequitur quod nomen essentie sit aliquid quid analogum per quod diversa entia in diversis gradibus et speciebus collocantur scilicet quia nomen essentie sumitur est ab ente quod dividitur in decem predicamenta ergo innuitur quod essentia idem est cum quiditate Nam essentia est illud per quod res in diversis gradibus collocantur scilicet illud quo res indicta ipse ponitur est quiditas eius que per diffinitionem explicatur igitur quiditas et essentia idem sunt et hoc est quod a philosophis est quod quid erat esse nominatum. hoc est illud quo aliquid formaliter habet esse et melius dicitur quod quod quid erat esse quia quod quid est ad denotandum potentiam nature et ordinem causalitatis essentie ab ente Tertio sequitur quod essentia quandoque dicitur forma totius Nam quod quid erat esse quod per diffinitionem explicatur dicitur forma totius a qua sumitur tota rei cognitio nam quiditas et essentia idem sunt Quarto sequitur quod essentia potest dici natura capiendo naturam de quatuor modis quos ponit Boetius in libro de duabus naturis Dicit quod natura dicitur esse illud quod quoquomodo potest capi ab intellectu unde nomen essentie indicatur quod essentia rei dicitur quod habet ordinem ad propriam operationem Ex quo sequitur quod essentia quiditas forma et natura idem sunt realiter Dicuntur tamen essentia dicitur dicitur quod per eam et in ea res habet esse Sed quiditas dicitur significatum per diffinitionem quiditativam explicatam Sed forma dicitur dicitur quod per eam certitudo rei simpliciter Sed natura significatum est per propriam operationem

Dubitatur primo Utrum nomen essentie sumatur ab ente per accidens sicut ab ente per se Respondetur quod non quia ens per accidens non habet essentiam unam sed est aggregatum ex rebus diversorum generum que non faciunt unum per se ut homo albus non dicit essentiam unam quia non cingitur albedo homini sicut potentia actus per se Ex quorum coniunctione resultat una essentia sicut in rebus que ex materia et forma Similiter essentia non dicitur ab ente in materia sicut primo dictum est; sed [illegible] quia ens acceptum pro ente per accidens vel pro ente rationis habet aliquod abstractum et non nisi essentia ergo essentia sumitur a tali ente Dicendum est quod abstractum entis rationis vel entis per accidens non est essentia sed entitas [illegible] quia eius termini non habent essentiam que incipiat esse per se habent tamen aliquam entitatem scilicet aliquem modum essendi et ideo entitas est superius ad essentiam

Dubitatur secundo Utrum esse sit simplicius ente vel essentia Respondetur primo quod esse est simplicius ente quia esse est in ente ut habitum in habente Modo habens est magis compositum habito Item in rebus materialibus omnibus componitur essentia et esse ex quibus compositum est; esse autem non componitur ex diversis Secundo dicitur quod esse est simplicius essentia quia nullum esse sive creatum sive increatum est in se compositum habet tamen aliquid alteri compositum; essentia tamen potest esse composita sicut essentia in rebus materialibus ut humanitas que dicitur forma forma hominis componitur materia et forma Item esse nunquam potest esse essentia aut recipit aliud scilicet esse et habet tamen potest esse

[illegible] actus et eius est [illegible] actus aut est similior [illegible]

Ad rationes ad oppositum Ad primam solutio patet [illegible] Ad [illegible] dicitur quod licet ordine naturae essentia sit prior et simplicior ente tamen quo ad cognitionem naturae quae incipit a toto et magis [illegible] eius prodit essentia Ad tertiam dicitur quod licet essentia [illegible] ut [illegible] prius recipiat esse quam ens [illegible] esse [illegible] magis recipit ens quam esse quia est de intellectu entis et in eo includitur et non includitur in esse

Et essentia in substantiis compositis materiam et formam comprehendat [illegible] primo quod non quia essentia [illegible] materiam et forma non includit [illegible] ab ea distinguitur [illegible] essentia est illud quod per diffinitionem [illegible] sunt formae ut [illegible] secundo [illegible] essentia [illegible] materiam et formam [illegible] sed essentia quae est forma totius [illegible] est [illegible] quia ut dicitur in libro [illegible] forma est [illegible] simplex et invariabilis essentia [illegible] materia est [illegible] essentia [illegible] comprehendat materiam sequitur quod essentia [illegible] et non [illegible] possunt cum essentia sit illud quod per diffinitionem [illegible] non est doctor sanctus thomas in [illegible]

In omnibus [illegible] est valde [illegible] essentiae et quot modis [illegible] sanctus [illegible] de essentiis [illegible] entibus [illegible] et [illegible] determinat de essentia [illegible] primus simplicibus et [illegible] essentia [illegible] in [illegible] determinat de essentia [illegible] essentia formarum simplicium et [illegible]

Ergo primo [illegible] quia [illegible] essentia [illegible] causa quae [illegible] essentia [illegible] esse subsistens [illegible] in essentia et [illegible] esse [illegible] actus essendi simplicissimi [illegible] essentia [illegible] et [illegible] esse et [illegible] est infinita [illegible] esse [illegible] esse [illegible] in alio [illegible] essentia [illegible] illud quod recipit esse [illegible] est materia [illegible] forma [illegible] materia et forma quae sunt partes [illegible] et in homine sunt corpus et anima quae [illegible] est [illegible] sola non est essentia [illegible] essentia [illegible] et in [illegible] est

Si enim ad essentiam cognitionis substantie composite ut intrat ad speciem vel ad genus
aliqua sit aliud quod est ipse in actu ergo materia non est sola essentia
substantie composite. Conclusio secunda forma tantum non est essentia quamvis
est illud quod per diffinitionem significatur sed diffinitio substantiarum naturalium non tantum forma
continet sed etiam materiam aliter enim diffinitiones naturales et mathematice non differrent ergo
essentia substantie composite comprehendit materiam et formam, ut patet. dicitur quod materia
in diffinitione substantie naturalis ponatur sicut additum substantie vel sicut ens extra
essentiam eius quia hic modus diffiniendi est accidentium que essentiam perfectam
non habent. Ideo oportet quod in sua diffinitione recipiant subiectum quod est extra
genus eorum. ad quem substantie naturales totaliter habent essentiam et per quas explicatur
earum diffinitiones, et ideo materia ponitur in diffinitione earum ut pars [illegible] est
quod est non ponitur tanquam aliquid additum sed tanquam pars essentie.
Tercia conclusio essentia substantie composite non est relatio media inter materiam
et formam vel aliquid superadditum ipsis quia de necessitate esset accidens
et quod extraneum cum adveniret per materiam et formam
ut patet [illegible] cognosceretur que omnia essentie conveniunt per formam enim
que est actus materie illa efficitur ens actu et hoc aliquid. Ideo quod
superadvenit non dat esse simpliciter materie sed esse tale sicut faciunt alia
accidentia [illegible] etiam [illegible] sicut albedo facit actu album. Ideo non
dicitur generari simpliciter sed secundum quid ergo essentia substantie composite
non significat relationem [illegible] forma [illegible] et compositum super [illegible]
Conclusio quarta essentia in substantiis compositis materiam et formam in se
comprehendit. Probatur ista conclusio per duas rationes. Prima per auctoritatem Boecii
in suis commentis predicamentorum dicentis quod usia significat compositum et usia apud Grecos idem
est quod essentia apud nos ut dicit ipse Boecius in libro de duabus naturis.
Secundo per auctoritatem Avicenne dicentis quod quiditas substantie composite est ipsa compositio materie
et forme. Et commentatoris super septimo metaphysice quod natura quam habent species in
rebus generabilibus est aliquod medium id est compositum ex materia et forma. Secundo per
rationem quia essentia substantie composite non est forma tantum nec materia tantum sed est totum.
Essentia autem est secundum quam et in qua res habet esse ergo essentia non
est forma tantum nec materia tantum sed utrumque. quamvis ipsius esse
est actus per formam causa sit. Sic nos videmus quod illa que ex
pluribus principiis constituuntur non denominantur ab uno illorum principiorum sed ab eo quod
utrumque complectitur ut in saporibus quia ex actione calidi digerentis
humidum causatur dulcedo et tamen corpus non dicitur dulce a calore tantum
sed a sapore qui calidum et humidum simul complectitur ergo ex simili res
ex corpore et anima composita non tantum denominatur ab anima tantum que est alterum
illorum principiorum sed denominatur ab homine qui corpus et animam
comprehendit. Et similiter in aliis substantiis naturalibus hic est dubium. Videtur
tamen quod quamvis homines sed etiam albedo dicitur quod forma totius
vel superaddita sit forma partis sed ambe sunt una solum non
differentes. quia hec forma partis dicitur actuat materiam que est altera
pars compositi et forma totius dicitur aliquid ab ipsa quia ex qua resultet esse
totius compositi. Et ultra quod materia non ponitur in diffinitione substantie naturalis
tanquam pars essentie sed tanquam aliquid additum forme ut hic ponitur
in diffinitionibus accidentium tanquam additamentum quia hoc est quod causat actum
quando ab ipsa forma. Et hoc videtur esse in septimo metaphysice

Ad Rationes. Ad primam dico quod essentia dicit formam totius vel materiam et formam quas includit. Ad secundam dicitur quod omnis pars differ[illegible] sunt [illegible] quod sunt unius forme, nam materia que est in diversis [illegible] que omnino consistit est ad quantitatem et ad unius forme est [illegible] materia et non signata. Ad tertiam dicitur quod [illegible]

[illegible]

Utrum materia sit principium individuationis

Primo arguitur quod non quia [illegible]

[illegible]

Terno e quantitate alia quantitas e dimensiva quia sit corpus in se
natura generis ut Auerroes sic illud quod est prima materia est prima
cum materia sed quantitatibus non est prima materia in actu cum sit e[ius]
accidens, et sic ab eadem non dependet ut vult Auerroes si quantitas
esset ipse prima materia sequitur quod nulla penitus essent indi-
viduatio in genere sub substantia quantitate sed est falsum ergo relinquitur
quod praedicta opinio est falsa et solvende sunt rationes sic ad primam

Dicitur quod quantitas non est per se primum principium ad individuationem ut est totale
principium sed materia quantitate signata est sufficiens principium et totale de se
sed per se ad individuationem et multiplicationem individuorum quantitas enim
substantia a materia est multiplicationis et susceptibilitas. Ideo de se non est
principium determinans speciem sive ad esse individui sed ideo materia
que est prima subiectum non est receptibilis in aliud cum est primum
principium incommunicabilis forme in ea recepte et quia illa materia non
est determinata ad hic et nunc ut distincta quantum ad formam nisi
per quantitatem sub qua est ideo illa materia sub quantitate est sufficiens
principium individuationis et quantum ad incommunicabilitatem et distinctionem indi-
viduationis. **Ad secundum dicitur** similiter quod quantitas per se non est totale
principium determinans individuum ad hic et nunc sed materia subsistens
quantitati et eius dimensionibus. **Ad tertium** dicitur quod individuum est esse
dimensum in partes integrales et indivisum in partes subiectivas et ideo
in plurali plures ad unum individuum ut individuum quod est sit
indivisibile in partes subiectivas ratione materie que tollit incommunicabilitatem
forme ideo materia est principium individuationis quantum ad incommunicabilitatem
et non quantitas. Similiter dicitur de quanta. **Tertia opinio** quod opinio
Alberti de principio individuationis videtur esse materia signata materia de se
est incommunicabilis eo quod est subiectum primum in aliud non receptibile et cum
de se sufficiens per illa formam quam suscipit incommunicabile. Et sic est
totale et sufficiens principium individuationis et sic posset videri per hoc sortem et platonem
quia esset plures absque accidentibus. Addit tamen accidentia ut individuum sit
licet materia et formas ideo distinctas ergo materia est principium indi-
viduationis sed hec opinio non videtur assignare principium totale individuationis
et sufficiens et quantum ad incommunicabilitatem et quantum ad distinctionem indi-
viduorum ad invicem. Unde si esset per accidentia communia cum sorte et platone sed et
ideo non remanet in esse distincto quantum ad esse hic et nunc quia
unius forma in quantum talis esset incommunicabilis quia recepta in subiecto primo
quod non potest aliud recipere. **Tertia opinio** est opinio sancti Thome est quod
licet quantitate signata est principium individuationis et non materia per omnimodam
nec accidentia licet materia signata que subiecta dimensionibus est dictum
et hic materia non ponitur in diffinitione hominis materia videlicet dico
sed ponitur in diffinitione sortis si sortis diffinitionem haberet in diffinitione
hominis non ponitur hec os hec caro sed ponitur os et caro in com-
muni que non sunt signata. Unde prima illarum opinionum in duo concordat
individuum quantum ad suum formale quod est esse distinctum et non
quantum ad suum materiale quod est esse incommunicabile secunda vero
secundum individuum quantum ad suum materiale quod est sola in quantitativa
sed tertia individuum quantum ad materiale et formale simul. Unde
sic hec **Conclusio** **principalis** materia quantitate signata est sufficiens

principii individualis plus concluditur primo quod illud est suppositum particu-
individuationis quod est principium materialis et quod sit [illegible] forma [illegible]
lare et [illegible] dispositum [illegible] [illegible], sed materia quantitate
signata est [illegible], quia de ratione eius est quod sit principium singularitatis
et de ratione quantitatis quod sit principium [illegible] et non [illegible] de se ne-
quantitas de se [illegible] est [illegible] igitur **Secunda** [illegible] est

esse principium individuationis [illegible] sed solum [illegible] et [illegible]
[illegible] [illegible] quod [illegible] materia [illegible] sit de quantitate speciei [illegible]

se considerari [illegible] sit tamen ut sic esse in alio [illegible] non abstrahitur
de alio predicatur [illegible] esse de concreto vel de abstracto, non de concreto quia
tunc sic ut pars ad quam illud pars de toto [illegible] plus, nec de abstracto cum tale
non abstrahitur [illegible] includitur concludendo quod est aliud a corpore ut
animalitas concludit humanitatem [illegible] de humanitate non sit ut predicat tamen
sit forma. **Conclusio** Natura generis vel speciei abstracta sit aliud quod
predicatur genus vel speciei non videtur concludendo sequitur prima conclusio et quod
duobus animal et animalitas nam animalitas sit illa que ad essentiam
animalis pertinet concludendo et sic sicut omne aliud quod [illegible] animal
[illegible] sit non [illegible] specierum quia animal [illegible] de omnibus
[illegible] quod non [illegible] concludendo ab [illegible] et similiter videtur de
omnibus aliis **Dubitatur primo** Utrum forma que forma partis et totius
realiter distinguantur Arguitur primo quod non quia si sic tunc unius
rei non esset una forma nec unum esse patet quia [illegible] forma dat
esse et si essent plures forme realiter distincte [illegible] esse ut plura esse et unum
ens esset plura entia quod est impossibile [illegible] sed aliud quod est de ratione
forme essentialis [illegible] non distinguitur [illegible] sed forma partis [illegible]
[illegible] forma totius [illegible] in [illegible] simplicibus forma partis
et forma totius non distinguuntur realiter [illegible] in [illegible] **In oppositum arguitur**
anima in [illegible] forma totius [illegible] remanente forma partis
ut corrupto [illegible] humanitas [illegible] et non [illegible]
[illegible] forma partis et totius in [illegible] videtur realiter distinguuntur [illegible]
[illegible] quod forma partis dat et [illegible] materiam que est altera pars [illegible] et dat
forma partis quia [illegible] informat [illegible] sed forma totius
[illegible] et forma partis et materia et ita in se [illegible] materiam et
formam, ut [illegible] causa quod [illegible] forma partis et [illegible]
[illegible] quia ut [illegible] de anima quia [illegible] ut [illegible] et
aliud ut [illegible] potentia [illegible] et [illegible] potentia sit unum [illegible]
[illegible] partis et [illegible] resultet una forma totius, sed [illegible]
[illegible] non resultet una forma totius que sit [illegible] quia non
[illegible] ut [illegible] actus et [illegible] potentia cum [illegible] et [illegible] potentia
sunt [illegible] ad [illegible] quod in [illegible] forma
partis et totius sunt realiter distincte quia forma partis non includit materiam
[illegible] forma vero totius complectitur materiam et formam partis et se
[illegible] ut totum [illegible] forme partis, sed [illegible] totum [illegible] partibus realiter
distinctum realiter distinguitur a [illegible] parte [illegible] totum sed [illegible] partis [illegible]
[illegible] forma partis realiter distinguitur a forma totius [illegible]
[illegible] ut unius rei est [illegible] una forma totius a qua sumitur [illegible] esse [illegible]
sed [illegible] possunt esse plures subordinate [illegible] partis et totius quia
[illegible] sit [illegible] totum [illegible] et illud [illegible]
[illegible] constituunt [illegible] et essentiam [illegible] partis [illegible]
distinguitur realiter a toto [illegible] non [illegible] et sic est de forma partis
et forme totius [illegible] quod non est simile quia [illegible]
sunt forme [illegible] in [illegible] non [illegible] realiter distinguuntur a forma
partis, sed [illegible] non sunt forme [illegible] sed [illegible] complectitur
[illegible] que distinguitur realiter a forma partis **Dubitatur secundo** [illegible] esse totius [illegible]
[illegible] a forma totius vel a forma partis [illegible] a forma partis quia
illa forma que actuat materiam et informat [illegible] dat [illegible] esse sed forma
partis [illegible] [illegible] sed [illegible] forma dat esse [illegible] sit
de [illegible] forme [illegible] forme partis dabit esse Ad [illegible] quod esse totius

in substantiis separatis quanto aliquid est simplicius tanto est perfectius, in substantiis autem materialibus quanto aliquid est compositius tanto est imperfectius [illegible] prima materia est imperfectissima in rebus universi [illegible] perfectissima

Secundum quod esse est esse essentie non fluit a forma [illegible] et non a forma [illegible] quia esse in [illegible] totam [illegible] et non tota forma [illegible] sic forma [illegible] esse in [illegible] a forma [illegible]

Secunda [illegible] quia [illegible] esse essentie [illegible] fluit a forma [illegible] non posset [illegible] esse [illegible] quod est [illegible]

[illegible] quia [illegible] fluit [illegible] a forma [illegible] est de quiditate [illegible] forma et quiditas [illegible] materialis [illegible] non posset [illegible] cognosci vel comprehendi [illegible] esse essentie [illegible] dicitur quod a forma [illegible] non fluit [illegible] a forma [illegible] formam [illegible] forma [illegible] non [illegible] esse essentie quia [illegible] esse essentie est [illegible] ex forma et materia et non est [illegible] forma [illegible] quod [illegible] forma dat aliquod esse sed non dat esse [illegible] essentie

Ad rationes [illegible] [illegible] abstractio a [illegible] et determinatione [illegible] quia non fit [illegible] determinate sed confuse [illegible] non abstrahitur a [illegible] et [illegible] quod non [illegible] abstractio [illegible] ad [illegible] abstractio [illegible] abstractio a [illegible] et [illegible] abstractio [illegible] et de [illegible] non [illegible] abstractio [illegible] [illegible] quia [illegible] non [illegible] sed [illegible] humanitatis non [illegible] ab [illegible] sed [illegible] [illegible] et [illegible] humanitatis [illegible] abstrahitur a [illegible] et [illegible] causa quia abstractio [illegible] non [illegible] de [illegible] non est [illegible] sed [illegible] est [illegible]

Utrum essentia in substantiis separatis sit composita ex materia

et forma. Arguitur quod sic quia omnis [illegible] alia que [illegible] essentia que [illegible] composita ex materia [illegible] et forma [illegible] in substantiis separatis essentia est forma et materia [illegible] in libro de unitate forma [illegible] esse non [illegible] in substantiis separatis est materia [illegible] quod non [illegible] est forma [illegible] et est [illegible] separate non sunt forme [illegible] forma [illegible] et determinatur [illegible] materia [illegible] separate [illegible] sunt [illegible] in [illegible] essentia est [illegible] forma et materia

In oppositum auctoritas sancti Thome in [illegible] [illegible] est quod essentie in substantiis [illegible] et qualiter se habet ad intentiones logicales [illegible] determinatur [illegible] substantiis separatis unde qualiter se habeat essentia in [illegible] in substantiis separatis et in prima causa

Contra [illegible] quia [illegible] prime cause [illegible] concedebant [illegible] materia et forme [illegible] in anima [illegible] [illegible] in libro fontis vite [illegible] quia [illegible] sunt [illegible] in [illegible] quod [illegible]

[illegible] spiritualia corporea et aliquid quod proveniat cum illa volunt concludere quilibet quod
sit a spiritualibus corporeis est forma et aliud quod subiectum illi formae distinguitur
a materia [illegible] hoc scilicet quod eadem est materia spiritualium corporalium et incorporalium
sed contra illorum opinionem sit haec conclusio impossibile est esse eandem materiam spiritualium
corporalium et incorporalium quia non impossibile est quod forma spiritualis corporalis
et spiritualis recipiantur in eadem materia aliter oporteret quod una et eadem res numero
esset corporalis et spiritualis quia in spiritualibus esset materia tunc oporteret poni
aliam partem materiae quam recipiunt formae corporales sed materia divisa
non potest intelligi nisi sub quantitate qua remota manet in-
divisa ut dicitur primo physicorum sequitur quod si in spiritualibus esset materia
ipsa esset quantitati subiecta quod est impossibile quia non est eadem materia [illegible] cor-
poralium et spiritualium **Secunda conclusio** impossibile est quiditatem materiae
esse in substantiis separatis quia hoc dicit philosophus [illegible] quod ipsae substantiae
separatae non habent separatas [illegible] a materia [illegible] patet quia [illegible]
spiritualium formarum quae cum actu de se non sunt intelligibiles et hoc [illegible]
sunt intelligibiles nisi [illegible] separantur a materia et a conditionibus
materiae quod [illegible] in qualibet [illegible] intelligibili sit aliquid incorporale a materia
sed quod non [illegible] tamquam partem sui ut [illegible] sit forma in materia [illegible]
[illegible] anima sit forma in materia [illegible] tamen [illegible]
est [illegible] corporis ut [illegible] est [illegible] organo cor-
porali sed est [illegible] essentia [illegible] ut in [illegible] quae [illegible] esse
[illegible] simplex est [illegible] materia et forma [illegible]
[illegible] materia [illegible] materia corporalis [illegible]
materia non [illegible] corporalis nisi [illegible] sub forma corporali et hoc
[illegible] forma corporali sed hoc non [illegible] esse [illegible] forma cor-
poralis [illegible] a materia [illegible] in [illegible] vel in
[illegible] non est [illegible] et formae [illegible] simpliciter [illegible]
essentia [illegible] in [illegible] corporalibus sed [illegible] formae [illegible] esse [illegible]
[illegible] intelligentia est [illegible] forma
et esse et [illegible] forma [illegible] inesse [illegible]
[illegible] essentia [illegible] materiam et formam et forma [illegible] materiam
sed in separatis [illegible] non [illegible] aliam sed [illegible] actualitas [illegible]
essentia. [illegible] sit illa [illegible] quia [illegible] sit [illegible]
causa [illegible] quod [illegible] causae [illegible] esse [illegible] sed non [illegible]
sed [illegible] est [illegible] materiae ad formam quia forma dat esse materiae et [illegible] causa eius
[illegible] impossibile est materiam esse sine forma sed [illegible] est [illegible] unde [illegible]
[illegible] forma [illegible] formae [illegible] materiam sed [illegible] sit quae
[illegible] sine materia [illegible] a [illegible]
quod [illegible] et [illegible] ille formae quae sunt [illegible]
[illegible] sunt formae sine materia [illegible] sunt [illegible] ideo [illegible]
sunt sine materia [illegible] **Tertia conclusio** [illegible] separatis essentia
non est [illegible] materia et forma [illegible] conclusio [illegible] habere
[illegible] essentiam et [illegible] compositorum [illegible] materiam et
formam [illegible] formam [illegible] alia [illegible] est [illegible]
essentia [illegible] designando [illegible] materiae designatione [illegible]
[illegible] essentia designata [illegible] non [illegible] et [illegible] hoc
non animal sed essentia [illegible] solum [illegible] designando [illegible]
[illegible] sit [illegible] formam [illegible] modo [illegible] essentia [illegible]

Simplicitas [illegible] de ipsa simplicitate [illegible] ideo dicit Avicenna quiditas sive simplicitas est [illegible] [illegible] [illegible] [illegible] sive [illegible] non [illegible] ista [illegible] [illegible] [illegible] [illegible] sit [illegible] vel [illegible]. Secunda [illegible] est quia esse una sive [illegible] in eo quod impetum in [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] pluralitas [illegible] [illegible] [illegible] sed essentia sive simplex [illegible] non est [illegible] de [illegible] ordinata [illegible] non [illegible] [illegible] pluralitate [illegible] [illegible] sed [illegible] [illegible] [illegible] tot [illegible] [illegible] et [illegible] est [illegible] de [illegible] ordinata [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] in [illegible] [illegible] [illegible] **Ad rationes** [illegible] [illegible] ad [illegible] [illegible] [illegible] non [illegible] [illegible] sed ab alio quod est male in re et [illegible] ab illo quod est formale in re [illegible] in [illegible] [illegible] [illegible] quod [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] ad [illegible] [illegible] [illegible] esse [illegible] et [illegible] [illegible] [illegible] [illegible] [illegible] et ab illa [illegible] [illegible] ad [illegible] [illegible] [illegible] [illegible] [illegible] de [illegible] [illegible] et [illegible] [illegible] ideo non [illegible] [illegible] [illegible] ab [illegible] [illegible] ad [illegible] [illegible] [illegible] essentia sive simplex non est [illegible] [illegible] est [illegible] non esse [illegible] [illegible] [illegible] ad [illegible] ideo non est [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] non sunt [illegible] [illegible] [illegible] ad [illegible] esse quia [illegible] [illegible] in essentia sed sunt [illegible] [illegible] [illegible] [illegible] ad [illegible] [illegible] quia non [illegible] [illegible] [illegible] [illegible] [illegible] quia non sunt [illegible] in [illegible]

Utrum ens increatum quod est prima causa

sit omnino simplex. [illegible] primo quod non quia [illegible] [illegible] [illegible] quod est ab alio [illegible] quod est et [illegible] alio quo est [illegible] in [illegible] [illegible] est aliud [illegible] [illegible] quod [illegible] [illegible] et aliud [illegible] quod est [illegible] [illegible] sed [illegible] est [illegible] [illegible] [illegible] [illegible] est [illegible] et [illegible] [illegible] [illegible] [illegible] prima causa [illegible] [illegible]. Secundo sic [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] et [illegible] essentialiter [illegible] et ipsa [illegible] [illegible] [illegible] [illegible] [illegible] non est omnino simplex. Tertio [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] in [illegible] [illegible] [illegible] non possunt non esse omnino simplex sed prima causa [illegible] [illegible] [illegible] essentialiter et formaliter sed [illegible] [illegible] non possunt in [illegible] [illegible] [illegible] [illegible] est [illegible] [illegible] et [illegible] [illegible] prima causa non est omnino simplex. Quarto sic [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] non est omnino simplex sed [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] et multa alia [illegible] non est omnino simplex. **In oppositum est** quia si [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] et [illegible] non [illegible] [illegible] quod est [illegible] [illegible] [illegible] [illegible]

Primo [illegible] [illegible] [illegible] est [illegible] in se [illegible] [illegible] non est [illegible] [illegible] et [illegible] in [illegible] [illegible] quod est [illegible] [illegible] [illegible] [illegible] [illegible] et [illegible] [illegible] [illegible] [illegible] [illegible] est de [illegible] [illegible] sive simplicitate et [illegible] de ente increato [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] prima

Conclusio Ens increatum est omnino simplex quia ens increatum quod est [illegible] est perfectissimum et optimum sed in illo quod est perfectissimum et optimum [illegible] [illegible] perfectionem aut bonitate, sed in ente [illegible] est [illegible] [illegible] [illegible]

In creaturis esse et posse non distinguuntur

[illegible] quia [illegible] semper [illegible] quia non est [illegible] [illegible] producere [illegible] modo [illegible] de [illegible] producere [illegible] **Secundo sic** [illegible] quae [illegible] causae [illegible] esse [illegible] non est [illegible] [illegible] quod est [illegible]

[illegible] **Tertio sic** in omni [illegible] est [illegible] potentia et [illegible] actus [illegible] potentia et actus [illegible] causa [illegible] potentiam ad actum et [illegible] semper [illegible] quod est impossibile [illegible] esse [illegible] et non [illegible] quod [illegible] actum [illegible] potentia ad actum [illegible] quod est [illegible] non est [illegible]

Prima conclusio [illegible] quod [illegible] est [illegible] esse [illegible] causa [illegible] [illegible] non est [illegible] esse [illegible] [illegible]

Secunda conclusio [illegible] causa esse [illegible] causae quia [illegible] esse [illegible] causa [illegible] esse [illegible] causa essendi [illegible] essentia [illegible] causa essendi in tota [illegible] rerum **Ad rationes** [illegible] essentia [illegible] esse [illegible] [illegible]

Quibus sic suppositis [illegible] pro actu essentie. **Prima conclusio** in omni ente creato
suum esse et essentia realiter distinguuntur. Probatur primo quia quicquid non est
de quidditate vel essentia rei [illegible] accidit et advenit ab extra et realiter differt
omnia [illegible] quia [illegible] intelligi sine hiis que sunt partes essentie sed
omnis essentia vel quidditas potest intelligi non intelligendo suum esse, possum enim
intelligere quid est homo vel fenix et tamen ignorare an habeant esse in
rerum natura vel non et similiter in [illegible] ergo in omni ente creato
esse et essentia realiter differunt. Secundo sic omne quod convenit alicui vel
causatum a sua essentia sicut [illegible] convenit homini vel a principio extrinseco
sicut lumen in aere ab influentia solis, sed non potest dici quod sit causatum ab
essentia rei create quia sic res aliqua esset sibi ipsi causa essendi et
ipsa produceret se in esse quod est impossibile ergo [illegible] non sunt causata ab essentia rei
sed oportet quod ab alio sit causatum ergo est aliud ab essentia. Tertio quicquid est
est et esse [illegible] distinguuntur a quo esse quia si non haberet suum esse non posset
ab eo separari [illegible] sed non potest sic omne creatum potest esse et non
esse et sic suum esse potest separari ab eo [illegible] posito sine sorte sit sine non
sorte homo ergo essentia et esse realiter differunt [illegible] in esse et essentia
in ente creato [illegible] quia sicut essentia ab [illegible]
[illegible] **Conclusio 2a** esse se habet ad essentiam sicut actus ad
potentiam probatur primo quia [illegible] quod vere est complementum alicuius ad
quod est complementum et perfectio est actus alicuius sed esse est complementum
essentie [illegible] Secundo sic omne aliud quod convenit alicui ab agente est
actus eius respectu [illegible] sed esse
convenit essentie a suo agente quia esse [illegible] suum agentem
ergo et actus essentie in [illegible] complens est sicut potentia
quia compositio est esse et essentia [illegible] actu et potentia sicut [illegible] et quod
est [illegible] essentia [illegible] quod est esse [illegible]
Tertia conclusio In intelligentiis non est esse [illegible] sed essentia et esse [illegible]
probatur nam omne esse rei create est receptum in alio quia est [illegible] et [illegible]
quia non est [illegible] sicut [illegible] ergo suum esse est
receptum in alio et illud [illegible] non est materia sed forma [illegible]
[illegible] sicut esse et essentia [illegible] in substantiis separatis non est [illegible]
[illegible] quia in [illegible] esse et essentia que [illegible]
[illegible] **Quarta conclusio** Compositio forme et esse in substantiis separatis
est aliud [illegible] a compositione forme et materie [illegible] actu et potentia
quia materia non est tota [illegible] omnes forme essent [illegible]
in substantiis separatis potentia est tota [illegible] Secundo sic esse non est actus materie
sed totius nam esse est actus illius de quo [illegible] sed de materia non dicitur
[illegible] est sed de toto composito [illegible] in [illegible] forma [illegible]
[illegible] materia [illegible] quod est [illegible] esse [illegible] forma [illegible] quo
est et quod est [illegible] quo est [illegible] totum [illegible]
materia et forma est illud quod est et [illegible] quia [illegible]
[illegible] forma [illegible] illud quod est [illegible] quo est et [illegible]
in [illegible] est [illegible] compositio [illegible] in [illegible] duplex est compo-
sitio prima est ex materia et forma que est compositio essentie, secunda est ex
esse et essentie que est [illegible] quod est [illegible]

[illegible] composito [illegible] ... in omni ente [illegible] **Ad Rationes** [illegible] ... essentia ... [illegible] ... forma ... [illegible] ... unitate bonitate ... [illegible] ... voluntatem ... [illegible] ... forma que est actualitas ... [illegible] ... forma que est essentia substantie

Omnes substantie separate ab invicem differunt

[illegible] ... In oppositum arguitur auctoritate ... [illegible] ... intelligentia ... [illegible] ... forma ... [illegible] ... anima ... [illegible]

[illegible] principia [illegible] materialiter ut [illegible] materie [illegible] ad [illegible]
[illegible] anima et corpore [illegible] unum esse in composito [illegible]
Secundo [illegible] esse anime [illegible] corpori non [illegible] dependet a corpore
ideo anima [illegible] in corpore [illegible] ideo per hanc formam que est

[illegible] actuum et passionum et [illegible]
[illegible] disponitur [illegible] forme. Et ideo [illegible] conclusio [illegible]
[illegible] in substantiis separatis [illegible]
in materia sunt [illegible] et ideo in [illegible] possunt [illegible]
in [illegible] gradibus actus et potentie [illegible] sed in substantiis
separatis [illegible] diversos gradus actus et [illegible] illa que
[illegible] plus [illegible] de actu et minus de potentia [illegible]

[illegible] non [illegible] sed in substantiis separatis [illegible]
[illegible] in materia
[illegible] diversos gradus [illegible]
ad [illegible] diversos gradus [illegible] diversos gradus actus
et potentie ideo similiter in substantiis separatis [illegible] diversos gradus
actus et potentie [illegible] et [illegible] quod in [illegible]
[illegible] generis, speciei et [illegible]
[illegible] **Sexta conclusio** [illegible] separate [illegible] quod non [illegible]

[illegible] conveniunt in forma et [illegible] in materia [illegible] ideo [illegible] separate

Ante et prius

Accidens et suum subiectum sunt
unum non identitate naturarum
sed identitate suppositi vel subiecti

Aristotelis dicimus quod logica per hoc distinguitur ab aliis scientiis realibus
quia scientie reales sunt de intentionibus suppositalibus pro rebus sed logica
est de intentionibus suppositalibus pro intentionibus sed in ista parte specie
predicatum de pluribus differentibus numero subiectum una intentio que non
supponit nisi pro intentionibus quia nulla res predicatur [illegible] de pluribus
nisi per vocem vel scripturam ad placitum institutam. Ideo negatur [illegible]
quam esse scientiam realem. Item quod non sit una res sed negatur ideo
esse scientiam realem quia non est de intentionibus suppositalibus pro rebus
[illegible] antedictum patet et consequenter dicimus talem scientiam esse
de rebus sensibilibus [illegible] sensibilibus [illegible] materia et forma
principaliter et secundario de aliquibus subiectis separatis et de rebus
generabilibus et corruptibilibus [illegible] est quod sunt de terminis suppo-
nentibus pro talibus rebus. Ulterius dicimus Aristotelis quod scientia non est de sin-
gularibus sed de universalibus supponentibus pro ipsis singularibus sicut in naturali
philosophia et [illegible] loquendo dicitur scientia esse de corruptibilibus et de mo-
bilibus quia est de terminis qui pro talibus supponunt. Et sic per ista patet
[illegible] omnis scientia sensibilis [illegible] materia et forma
[illegible] subiectum res aliqua vel intentio in anima vel vox seu res
et non res [illegible] quia nulla talis est [illegible] omne quod est [illegible]
unum numero est [illegible] subiectum aliqua res singularis et non magis una
quam alia vel ergo quaelibet subiectum vel nulla, non quaelibet quia multa sunt
que non [illegible] in scientia talium [illegible] quia multa sunt de quibus
numquam cogitavimus ergo nulla talis res subiectum [illegible] subiectum [illegible] vel
[illegible] Aristotelis [illegible] de rebus naturalibus [illegible] scientia
ultra dicimus [illegible] sic [illegible] que scientia [illegible] naturalem [illegible]
[illegible] de rebus sensibilibus [illegible] subiectum [illegible] intentionibus
seu [illegible] anime [illegible] talibus rebus. Ideo [illegible] loquendo scientia naturalis
non est de rebus generabilibus et corruptibilibus nec de [illegible] naturalibus
nec de rebus mobilibus [illegible] tales res in [illegible] scientia [illegible] subiectum
in predicamento [illegible] loquendo scientia naturalis est de intentionibus anime
[illegible] talibus rebus et suppositalibus talibus [illegible] in multis [illegible]

Prima conclusio

[illegible]

Singularium et corporis sensus quia per ea in nobis cognitio intellectus et singularia sunt notiora [illegible] universalibus [illegible] ad primam partem huius [illegible] sensus precedit cognitionem intellectus cum intellectus suam cognitionem accipiat a sensu. Secunda pars [illegible] quia [illegible] in intellectu [illegible] plura sunt [illegible] sensu [illegible]

Conclusio 2a [illegible] sensus [illegible] cognoscens [illegible] cognoscitur [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] individuum vagum [illegible] et determinatum individuum [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] [illegible]

Conclusio 3a [illegible] universalia [illegible] intellectum [illegible] [illegible] [illegible] universalia [illegible] cognoscuntur [illegible] [illegible] [illegible] [illegible] [illegible] aliqua conclusio [illegible] **Prima est** [illegible] [illegible] universalia [illegible] [illegible] [illegible] [illegible] cognoscit [illegible]

Secunda [illegible] **Contra** [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] universalia [illegible] [illegible] [illegible] [illegible] universalibus [illegible] [illegible] [illegible] singularia [illegible] [illegible] [illegible] [illegible] [illegible]

Marginalia: individuum vagum [illegible]; [illegible]

Et quod sic arguitur [illegible] signum et [illegible] et sunt [illegible] signa, secundum quod sentitur in toto
integrali sensibili, [illegible] totum sensibile notius est sensui [illegible] quam sunt partes
ergo et totum integrale [illegible] intellectui [illegible] est totum intelligibile quia comprehendit
multa ut partes sicut [illegible] confusa, ergo universale notius est [illegible] intellectui quam
singulare. Et si arguitur [illegible] [illegible] [illegible] toto [illegible] et comprehensione
[illegible] quod est necessario [illegible] est totum integrale et [illegible] [illegible] [illegible]
quia [illegible] est confusum sicut [illegible] qui comprehendit [illegible] non comprehendit [illegible]
distincte, sed [illegible], ita qui comprehendit totam domum non distinguit
partes domus [illegible] [illegible] comprehendit totum integrale sed [illegible] notitiam
sunt [illegible] et ita [illegible] de toto [illegible] [illegible] est [illegible] utroque [illegible]
[illegible] [illegible] quod tamen [illegible] [illegible] non est [illegible] [illegible] sed [illegible] esse confusum
[illegible] [illegible] [illegible] confusa et non composita. [illegible] signum de toto integrali
intellectu [illegible] est [illegible] [illegible] [illegible] ut differentia ut [illegible]
integrale [illegible] differentia [illegible] sunt [illegible]. [illegible] [illegible]
[illegible] [illegible] [illegible] [illegible] [illegible] [illegible] distinguunt [illegible]
[illegible] [illegible] totum [illegible], sed [illegible] [illegible]
[illegible] in [illegible] distincte [illegible] principia [illegible]. Et [illegible] [illegible]
[illegible] [illegible] totum integrale [illegible] ut [illegible] est [illegible] notitiam
[illegible] [illegible] cognitionem confusam [illegible] cognitionem distincte [illegible]
[illegible] ergo [illegible] est [illegible] notitiam habet [illegible] distincte cognoscimus [illegible]
[illegible] [illegible] universale sensibile [illegible] [illegible] sensibile est [illegible]
[illegible] [illegible] est [illegible] [illegible] [illegible] [illegible] [illegible]
[illegible], [illegible] [illegible] [illegible] [illegible] [illegible] [illegible]
[illegible], [illegible] [illegible] [illegible] [illegible] [illegible] omnes [illegible] esse patres
[illegible] [illegible] [illegible] [illegible] distincte [illegible] esse [illegible] et [illegible]
[illegible], ergo universale sensibile [illegible] [illegible] [illegible] notius est
[illegible] sensui, ergo sic [illegible] de universali intellectu quod intellectui, ergo [illegible]
[illegible] [illegible] quod [illegible] sic arguit [illegible] omnis cognitio determinata
sit [illegible] [illegible] [illegible] et distinguibili, ergo universale notius est singulari quam
est distinctum et determinatum. [illegible] [illegible] sic [illegible] [illegible] [illegible] nobis [illegible]
[illegible] procedamus a notioribus nobis et [illegible] ad notiora et [illegible] nature [illegible]
[illegible] [illegible] [illegible] sunt universalia sunt nobis notiora [illegible] ergo procedendum
est ab universalibus ad singularia. Unde [illegible] [illegible] [illegible] quod non eadem sunt
nobis nota et nature. Circa quod **Dubitatur primo** utrum eadem sunt
nobis nota et nature. Et arguitur quod sic quia universalia sunt nobis no-
tiora et [illegible] [illegible] in textu et [illegible] [illegible] est [illegible] eadem sunt notiora
nature ut [illegible] [illegible], ergo eadem sunt nobis nota et nature. Secundo
in mathematicis eadem sunt nobis nota et nature quod patet sic quia [illegible]
[illegible] [illegible] a prioribus et notioribus [illegible] [illegible] et [illegible] illa que
sunt nobis notiora conclusionibus deductis ex [illegible], ergo et [illegible]
[illegible] [illegible] [illegible] sed eadem sunt nobis notiora et [illegible], ergo eadem sunt
nobis notiora et nature. Quarto sic sensibilia que [illegible] sunt [illegible]
in [illegible] et in sensibus sunt nobis notiora et nature, ergo eadem sunt nobis
nota et nature. [illegible] [illegible] sensibilia sunt magis in actu, ergo sunt notiora
nature; sunt etiam nobis notiora quia cognitio [illegible] a sensu dependet. [illegible]

[illegible] natura non cognoscit ergo nulla sunt nota nature et ita [illegible] notiora

sunt nobis notiora et nature. Patet conclusio quia [illegible] simplicia ex quibus com-
ponuntur composita naturalia sunt nature notiora quia sunt sibi [illegible]
[illegible] sed [illegible] sunt nobis notiora quia confusa sunt et [illegible]
[illegible] [illegible] secundo [illegible] nobis sunt nature [illegible] quibus quia

et ergo non tamen sunt nobis notiora et nature / et [illegible] **Conclusio 2a**
In mathematicis tamen sunt nobis nota et nature [illegible] conclusio [illegible]
[illegible] quia [illegible] in mathematicis [illegible] formis naturalibus
Conclusio tertia In naturalibus non sunt tamen nobis nota et nature [illegible]

Naturales devenerunt in hunc errorem quod dicerent nil generari aut corrumpi sed
sed crediderunt omnem mutationem esse alterationem. Ad quod inducti fuerunt ratione
quam dissolvere nescierunt. Decepti fuerunt quia videbatur eis sequi ex hoc
quod ens non generatur arguentes sic quod si ens fit aut fit ex ente aut
ex non ente sed utrumque videbatur impossibile. Primum quia quod est
non fit ideo cum ens iam sit non fit. Secundum quia ex nichilo
nichil fit et quod fit [illegible] nichil fit [illegible] concludebant
quod ens non est generabile nec corruptibile. Et ulterius arguebant dicentes
quod entia non sunt multa entia sed tantum unum ens ponentes unum
[illegible] principium et dicebant [illegible] vel causas secundum generationem et
corruptionem sed solum secundum alterationem [illegible] continue remanet
semper unum [illegible]. Et iste est primus error antiquorum [illegible]

per analogiam ad formam [illegible] [illegible] est [illegible] [illegible]
[illegible] analogia [illegible] [illegible] [illegible] [illegible]
[illegible] materia est cognoscibilis per analogiam ad formam quia materia [illegible]
[illegible] formam et forma est actus et [illegible] materie ergo cognoscitur per analo-
giam [illegible] [illegible] analogia [illegible] [illegible]
ad alterum [illegible] ad materiam et formas artificiales [illegible]
[illegible] materia prima cognoscibilis est per analogiam [illegible] sic [illegible] sic habet
artificialia [illegible] ad formas [illegible] et [illegible] sic habet
materia prima ad formas naturales et [illegible] sed materia artificialis de se
informis est [illegible] actu [illegible] formarum artificialium [illegible]
materia prima de se informis est [illegible] actu [illegible] formarum naturalium
[illegible] quia [illegible] cognoscimus [illegible] [illegible]
[illegible] materiam et formam artificialem et [illegible] [illegible]
[illegible] formam [illegible] ergo [illegible] [illegible] in cognitionem [illegible]
[illegible] et ita materia est cognoscibilis per analogiam ad formam [illegible]
[illegible] analogie [illegible] conclusionem [illegible] quod materia non est [illegible]
in actu [illegible] est [illegible] materia et forma non [illegible]
sed est [illegible] in pura potentia ut dictum est [illegible] [illegible]
[illegible] [illegible] est actu [illegible] [illegible]
est materia cum ergo non est in [illegible] de non esse [illegible] esse in actu [illegible]
[illegible] non [illegible] in actu [illegible] [illegible] sed [illegible]
in pura potentia [illegible] sic materia prima esset [illegible] in actu [illegible]
formatis esse [illegible] quod est [illegible] [illegible] [illegible] [illegible]

Tunc dicitur ad rationes. Ad primam quod materia prima producta fuit in esse sub forma et non fuit [illegible] esse in prima causa sed solum sub forma et ita solum cognoscibilis est [illegible] a prima causa in [illegible] ad formam. **Ad secundam** dicitur quod materia prima non est esse eius in [illegible] sed solum in potentia ergo non est per se cognoscibilis. **Ad quartam aliam dicitur** quod ipsa non est prima [illegible] [illegible] est sub forma et ita [illegible] cognoscibilis [illegible] sub forma [illegible] [illegible] sub forma. **Ad ultimum dicitur** [illegible] materie [illegible] ad formam [illegible] materia [illegible] forme. **Ad [illegible] dicitur** quod licet materia [illegible] semper esse sub forma tamen [illegible] non esse sub forma [illegible] quod materia non est essencia [illegible] a forma. **Ad [illegible] principalem** [illegible] ad [illegible] quod [illegible] quod materia prima [illegible] gradibus et corruptibilibus sed [illegible] sit una [illegible] sed solum [illegible] esse [illegible] sub forma. **Ad [illegible] dicitur** quod [illegible] essenciam [illegible] [illegible]. Ad ultimum dicitur quod [illegible] [illegible] in omnibus gradibus et corruptibilibus sed non [illegible] sit una [illegible] **[illegible] aut per primum** [illegible] in [illegible] gradibus et corruptibilibus [illegible] esse [illegible] [illegible] loquendo de unitate que est [illegible] et [illegible]

Questio talis Utrum naturalia

differant ab artificialibus per hoc quod naturalia habent in se
principium sui motus artificialia vero non et arguitur quod
non quia artificialia habent in se principium sui motus
quia lectulus vel securis facta[?] sursum descendunt de se ipsis ergo
habent in se principium sui motus. Preterea aliquid artificiale in eo in quo est
est principium saltus dummodo figura rotunda vel acuta est principium motus
in eo in quo est corpus cuius rotunda vel acuta figura velocius movetur
quam corpus [illegible] figure ergo artificialia habent in se principium sui motus. Item
accidens in intellectu vel in sensu est principium sentiendi et tamen accidens est forma
artificialis ergo artificialia habent in se et similiter arguitur de ceteris ergo
[…] artificiale et tamen habet in se principium sui motus [illegible]

Deinde arguitur quod naturalia non habent in se ipsis principium sui motus
quia anima et [illegible] sunt entia naturalia et tamen non habent in se
ipsis principium sui motus sed moventur a generante ergo etc. Et [illegible]
[illegible] ergo naturalia non habent in se ipsis et [illegible] dicitur quod
[illegible] gravia et levia non habent in se ipsis principium activum sui motus
sed tamen principium passivum [illegible] quia artificialia
habent in se ipsis principium passivum in [illegible] naturalem susceptivam
formarum artificialium [illegible] quia motus [illegible] est naturalis et tamen est
[illegible] ergo naturalia non habent in se ipsis principium
[illegible] sui motus

Ultimo arguitur quia lectus et [illegible] sunt [illegible]
[illegible] et tamen non habent in se principium sui motus quia lectus est [illegible]
[illegible] et similiter [illegible] in [illegible] ergo etc.

Oppositum arguitur
[illegible] in [illegible] secundum [illegible] sunt alia quidem
natura alia vero per causas alias [illegible] ab arte vel a fortuna et patet [illegible]
[illegible] [illegible] ab artificialibus [illegible] quod [illegible] tendunt [illegible]

Secundum
[illegible] et [illegible] [illegible] [illegible] ad [illegible]
Et [illegible] [illegible] in primo libro determinavit de principiis [illegible] naturalis
quod [illegible] determinavit de [illegible] naturalibus et [illegible] [illegible] quia [illegible]
[illegible] primo cognoscere in [illegible] [illegible] [illegible] [illegible] quod [illegible]
[illegible] [illegible] [illegible] [illegible] [illegible] [illegible] in primo libro
[illegible] est de principiis [illegible] mobilis [illegible] est quod [illegible]
[illegible] de [illegible] et causis [illegible] Et primo de natura [illegible]
de [illegible] [illegible] de materia et forma [illegible] principiis [illegible]
et [illegible] causis [illegible]

Dicendum est quod [illegible] naturale [illegible]
[illegible] [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] naturalia in [illegible]
[illegible] quae [illegible] sunt [illegible] [illegible] et [illegible] naturalia [illegible]
[illegible] [illegible] sunt [illegible] [illegible] [illegible] sunt ad [illegible] [illegible]

[illegible] non possunt [illegible] a nobis [illegible] [illegible] [illegible] [illegible] [illegible]

Secundo [illegible] de natura quod ipse [illegible] vel pars [illegible] natura solum
reperitur in [illegible] et tamen in [illegible] ut [illegible] natura
[illegible] et [illegible] movendi et [illegible] in quo est ipse et
non [illegible] et [illegible] natura [illegible] reperitur in corporibus [illegible]
natura [illegible] ab alia sunt
[illegible] alia est natura [illegible] in posito tamen et in
sequentibus [illegible] natura [illegible] **Ultimus est [illegible]** [illegible] quedam
sunt naturalia et dicuntur [illegible] natura [illegible] et sunt illa que
habent in se [illegible] sui motus sicut sunt plante animalia [illegible]
[illegible] et [illegible] alia sunt entia non naturalia et ipsa sunt
duplicia [illegible] sunt [illegible] et [illegible] de quibus [illegible]
[illegible] alia sunt artificialia et sunt illa que sunt ab arte

[illegible] artificialia sunt [illegible] non sunt in alio [illegible]
[illegible] essent [illegible] natura et forme naturales sunt [illegible]
[illegible] non sunt in [illegible] in [illegible]

Utrum motus qui est subiective in mobili

sit [illegible] pluribus [illegible] arguitur primo [illegible] actus
[illegible] sed [illegible] est actus sed motus est actus [illegible]
quod motus est in movente et non in mobili. Item motus fluit a movente in
ipsum mobile sed non fluit a movente nisi esset in ipso quod non est in mobili.
Item [illegible] modo [illegible]
sed [illegible] est in agente [illegible] est a motu quod motus est in
movente. Item [illegible] movens [illegible]
ab illo quod est [illegible] est in movente. Item [illegible] motus [illegible]
in [illegible] non [illegible] in [illegible] motus est in [illegible]
non in mobili. Item [illegible] sed motus et
mobile sunt [illegible] motus non est in mobili et [illegible] in movente [illegible]
[illegible] motus et mobile [illegible] Ultimo [illegible]

[illegible] motus [illegible]
[illegible]
[illegible] mobili [illegible] movendo [illegible]

Tercium sit convenit infinitum movens est primo infinitum motum sed arguitur
quia ut dictum est accidit moventem moveri quia hoc solum movet primo et
movendo agit ergo movens agendo movetur dicitur quod movet per contactum
sic dictum sit quod ille agens tangit et tangitur sed accidit moveri ergo et
[illegible] accidit moveri infinitum movens est movens [illegible]
[illegible] advertendum primo quod movens [illegible] tangere quia se
tangendo movet sed non [illegible] celum non [illegible]

Jo. de [illegible]

[illegible] ad proprium locum non est materia neque forma [illegible] [illegible] [illegible]
Sed [illegible] ut quia materia et forma non separantur a re cuius sunt quod re ma-
nente, sed locum contingit separari a locato se manente in esse, ergo videtur probat
[illegible] quia in loco in quo erat aer [illegible] post aqua [illegible] aqua ergo locus
separatur a locato et econverso. Et [illegible] non [illegible] locus non est [illegible]
[illegible] [illegible] [illegible] et alia [illegible] non sunt separabilia a re
cuius sunt quod [illegible] [illegible] sed locus est separabilis ergo [illegible]
quia [illegible] esse in loco [illegible] [illegible] [illegible] [illegible] solum [illegible]
locus et vas [illegible] locus est immobile et vas est mobile sed utrumque separabile est
ab eo quod continetur ergo locus separabilis est a locato ergo non est materia neque forma [illegible]
[illegible] [illegible] [illegible] non [illegible] quia [illegible] est continere et esse [illegible]

Utrum tempus habeat esse in re extra animam aut solum in anima

Arguitur quod solum sit in anima quia preteritum et futurum in tempore non sunt simul in rerum natura [illegible] sed solum in apprehensione anime sed tempus componitur ex hiis [illegible] simul consideratis. Ergo tempus solum est in anima. Utrum omne quod mutatur sit divisibile ita ut pars [illegible]

[illegible] Ad oppositum est Aristoteles [illegible] omne quod mutatur [illegible] divisibile [illegible]

[illegible] conclusio responsalis omne quod mutatur est divisibile [illegible] quod mutatur est [illegible]

[illegible]

Responsio: non potest dici quod in termino ad quem quia quando aliquid est in termino ad
quem ultimo non mutatur sed iam mutatum est, nec potest dici quod sit in termino a quo
mutatur secundum se totum et omnes suas partes quia tunc non mutaretur. Unde [illegible] est
quod illud quod simul se habet secundum aliquas partes et secundum se non
mutatur sed magis [illegible] ut [illegible] partes et omnes eius partes [illegible] in
[illegible] mutatione non simul [illegible] et [illegible] quem [illegible] sed partes [illegible]
[illegible] potest dici sit in utroque termino secundum se totum et partes suas [illegible]
modo quia esset simul in duobus locis, nec etiam potest dici quod in neutro terminorum [illegible]
[illegible] et termino primo et non ultimo sunt sed [illegible] mutatur aliquid in [illegible]
[illegible] est ultimum [illegible] est primum [illegible] simul sed sit una linea
divisa in tres partes equales sed linea a b c manifestum est quod mobile quod
in [illegible] mutatum est in [illegible] ab sunt in loco equali [illegible] in alia parte [illegible]
mobiles non esse [illegible] ergo dicendum quod illud quod mutatur non potest in neutro termino
[illegible] esse quando mutatur accipitur non [illegible] sed [illegible]
[illegible] ergo quod omne quod mutatur secundum aliquid sui est in uno et
secundum aliquid sui [illegible] in alio sunt cum aliquid mutatur [illegible] ab in bc [illegible]
de loco ab [illegible] bc in quo movetur et a [illegible] in [illegible]
[illegible] desinit esse alba incipit esse [illegible] sit [illegible] manifestum est quod omne quod
mutatur cum sit partim in uno termino et partim in alio est divisibile. [illegible]
de [illegible] movet a [illegible] dubitationem [illegible] non [illegible]
quod mobile sit divisibile [illegible] et mobile quod [illegible] quae est solum in [illegible]
[illegible] sed quantitate [illegible] et ubi [illegible] non est divisibile [illegible]
quia illud quod mutatur secundum formam invenitur divisibile ergo [illegible]
[illegible] de eo quod [illegible] secundum [illegible] et [illegible]
[illegible] omnes [illegible] quia [illegible] quod mutatur, sed tunc [illegible]
[illegible] non valeat quia [illegible] mutationes sunt indivisibiles sunt [illegible]
[illegible] et corrupto quae non sunt in [illegible] ideo in [illegible] non
[illegible] quod illud quod mutatur sit partim in uno termino et partim in alio non
[illegible] partim est [illegible] et partim non [illegible]
[illegible] pluribus [illegible] quod [illegible]
[illegible] non est [illegible] quia [illegible] non [illegible]
[illegible] sit divisibile [illegible] magis [illegible] in [illegible]
mutationibus [illegible] in [illegible]
[illegible] et mutatione [illegible] quae sunt [illegible]
mutationem [illegible] quod illud quod mutatur quando est secundum totum et partes [illegible]
a quo mutatur [illegible] mutatur secundum illam mutationem, et [illegible] est in termino ad
quem non mutatur sed mutatum est [illegible] ergo quod non potest esse in utroque
[illegible] in neutro [illegible] in [illegible]
mutatione illud quod mutatur [illegible] mutatur partim sit in uno termino et partim in
alio, sed [illegible] invenitur in [illegible] mutationibus quia in illis

ut quolibet contraria est aliquod medium contingit quod illud quod mutatur de uno
mutatur prius sit in similitudine contrario et prius in alio secundum illa contraria, sed in illis
intercedentibus inter qualitatem similiter non est aliquod medium sicut de illis que
sunt de contrario in substantialibus aliud quod mutatur non est tamen dicendum principium
indivisibile continuum sed secundum aliquod alterationis videtur sicut cum mala aliquid non
est de primarum in formam sicut dum est in illo mutatur est in prima
secundum sic sed prius est sub forma sicut non solum sed formam sed tamen aliquod
in aliquod secundum sed primum dispositionem sicut sunt quam prius incipit aliquam
formam sicut habet novam perfectionem infra perficitur per quantum et tempus sunt de
simplex quia quod generatur primo habebatur et quod corrumpitur prius non erat
perficitur et ita communis transmutatio est simpliciter vel simul secundum vel primum
motus et alterationum sicut quando transmutatio se contrarium secundum ~~sicut~~ vel
in mutatis sed quanto successiva et divisione talis alterationis in quo per
infinitum, et similiter alteratio medii secundum quandam successionem et divisionem
corporis dimensiones licet ipse mutationes sunt indivisibiles secundum considerationem
separat et carnem, unde ipsa per sunt termini continui motus et per sic
prima vero est alterum que est ad alia dubitatio que non multum hic
alterum est esse tamen in motu alterationis sed illud quod alteratur prius sit in
parte termino et prius in alio dum alteratur non enim sit secundum motus alterationis
et primo una pars ~~alia~~ et postea alia, sed totum mobile simul alteratur primo
quod imperfecte postea perfecte sicut illud quod calefit est totum primo minus
calidum et postea magis calidum et per hoc dicit philosophus de specie et subiecto
quoniam est simile in alteratione sicut in loco quia locus primo media altera
sunt non aut alterationes contingit tamen simul alterari totum et non divisum
quibus hic doctor Thomas et philosophus in hoc sexto libro agit de motu tamen quod
de continuis. continuis aut motus primo et post et ipse motus in motu locali
quod solum fit esse continuum et regulatur ut determinatum est et ita de motu
parte in hoc libro sumit vel motum localem primo et primo vel aliquo autem
motus secundum continuitatem quod tamen per aliquod regulatur de continuis quantitatis de
termino ergo quod motus tamen localis sicut primo subiicitur locum ad quem
tendit secundum partes quam tamen totum alterationem non sit de manifestatione quam
cum sit alterari sit per divisionem contingit quod alterat omnis vero quantitas
sunt maior tanto minus corpus alterat quia ego omne alterans est finite virtutis
et ipse vel diminuta quantitatem corporis alterare subditum ~~finitatis~~ res
non recipit impressionem agentis et ideo totum quod subditum videtur agentis simul
alteratur et non prius propter sed illud alterandum sicut aliud alterat sibi continuum
et totum oportet efficere in agendo quam sicut alterat et quod quantum est
sicut ut alteratum sunt agens calefacit magis prius ad perfectionem quam
subditum enim intus et alia post sed calefacta prius calefaceret aliam ideo sicut in

Deinde si successio qua alia forma subingreditur et totum [illegible] in multis sunt quod [illegible]
[illegible] aut [illegible] abstrahi pariter [illegible] ab illa alteratio [illegible]
[illegible] est et simul alterari [illegible] totum [illegible] alterat [illegible]
quod in illo alterabili [illegible] agentis et simul [illegible] agentis
agentis [illegible] successionis [illegible] quia non alterari sicut [illegible]
[illegible] per alia magis approquinquat ad [illegible] alterant [illegible] in parte [illegible]
alterant [illegible] et ille [illegible] alterabilitas et per successionem [illegible] ad [illegible]
alterationis [illegible] ordine primum et maxime [illegible] in corpore alterabili quod [illegible]
[illegible] alterari non [illegible] quod ipsa successio [illegible] in alterationibus quod
fiunt a [illegible] sicut sunt [illegible] forme [illegible] et [illegible]
[illegible] forme [illegible] sicut [illegible] reducit se de calido in frigidum [illegible]
vel [illegible] ipsa successio in alterationibus que fiunt a [illegible]
[illegible] in [illegible] ut in [illegible] successio

Et primo probo [illegible] sed ista conclusio quia in movente se vel totum primo
et per se movet totum vel [illegible] pars movet alteram [illegible] vel [illegible] pars mo-
vet seipsam vel una pars movetur vel non movetur vel alia modo [illegible] movet
ut [illegible] in ista divisione [illegible] duo membra [illegible] sed quod vel totum movet primo
vel [illegible] quia [illegible] primo et per se membra [illegible]
ista duo membra quia pars non potest movere totum ut [illegible] secundo una
pars seipsam movet [illegible] totum movet totum sed ergo in illa divisione [illegible]
[illegible] illa membra, sed [illegible] tamen [illegible] potest [illegible]
ergo [illegible] quod est conclusio intenta. Et [illegible] non potest dici primum
sed quia tunc [illegible] movens movetur et mobile sed totum movet
totum per se [illegible] in [illegible] movet et [illegible] quod est [illegible] sed [illegible]
[illegible] et movetur [illegible] quod aliud sit mobile in [illegible] quod movet et aliud quod

An corpora celestia sint animata. In hoc fuit diversa opinio
apud philosophos. Anaxagoras enim, ut refert Augustinus viii
De civitate Dei, fuit ... apud Athenienses quia
dixit solem esse lapidem ardentem, negans utique ipsum
esse deum et aliquid animatum. Platonici vero posuerunt
corpora celestia esse animata. Similiter etiam apud do-
ctores fidei fuit diversa opinio. Origenes enim posuit
corpora celestia animata. Ieronimus etiam idem sentire
videtur exponens illud Ecclesiastes i^o lustrans universa per
circuitum pergit spiritus. Basilius vero et Damascenus
asserunt corpora celestia non esse animata. Augustinus vero
sub dubio derelinquit, in neutram partem declinans,
ut patet in secundo super Genesim ad litteram et in Enchiridion,
ubi etiam dicit quod si sunt animata celestia corpora, pertinent ad
societatem angelorum eorum anime. [illegible] ... ... et in

[illegible]

De potentia materie distincta ab ipsa materia.

[illegible]

[illegible]

Omne ens appetit semper vivere. [illegible] quia [illegible] materia in [illegible] et in non esse ideo non appetit esse [illegible]

[illegible]

per non saepissime agit tamquam deceptus ab apparente infallibiliter. Sed appetitus animalis intellectivus sequens cognitionem ipsius animalis quae fallibilis est. Et ergo [illegible] appetitus animalis aliquando fallitur cum [illegible] fertur in bonum apparens et non verum. Sed ad 2m dicitur quod appetitus naturalis praesupponit cognitionem in dirigente [illegible] sine cognitione [illegible] appetentis. Sed appetitus animalis est duplex scilicet quidam est cognitivus [illegible] et [illegible] est appetitus [illegible] et intellectivus [illegible] fertur in bonum [illegible] simplex. Sed intellectivus fertur in bonum separatum a materia scilicet intellectum. Item appetitus animalis [illegible] duplex quidam est irascibilis et fertur in bonum arduum [illegible] data ad impugnandum [illegible]. Sed appetitus concupiscibilis fertur in bonum delectabile [illegible] organa sunt [illegible] data ad delectandum. Sed appetitus intellectivus non dividitur in irascibilem et concupiscibilem quia fertur in bonum quod [illegible] bonum [illegible] delectabile non distinguuntur ipsum in irascibilem et concupiscibilem [illegible] non [illegible] [illegible] est [illegible] [illegible] appetitus [illegible] bonum [illegible] appetitus [illegible] et [illegible] esse [illegible] prima [illegible].

Haec est **Prima conclusio**: omne ens appetitu naturali appetit esse. Patet quia [illegible] appetitus fertur in bonum verum et in bonum perfectum [illegible] est [illegible] **Secunda conclusio** [illegible] appetitus naturalis fertur in esse. **Secunda conclusio**: nulla creatura appetitu naturali appetit non esse. Patet [illegible] [illegible] appetit [illegible] non esse [illegible] bonum quod non esse nullius [illegible] est appetibile nisi per [illegible] appetit [illegible] [illegible] non esse aliquo [illegible] appetit non esse [illegible] appetit [illegible] ph[ilosophus] [illegible].

Tertia conclusio: [illegible] appetit se perpetuare. Patet [illegible] in perpetuare [illegible] appetunt se perpetuare [illegible] appetitus.

Quarta conclusio: omne ens appetit se perpetuare [illegible] appetitu naturali. Patet quia [illegible] appetit se perpetuare [illegible] sunt perpetuare [illegible] appetit se perpetuare in esse quod non potest [illegible] perpetuari in [illegible] omne ens appetit se perpetuare ut est sibi possibile [illegible] et generabilia [illegible] appetit [illegible] [illegible] esse perpetuum et non esse [illegible] appetit non esse [illegible] est [illegible] esse [illegible] esse perpetuum [illegible] non esse [illegible] [illegible] est [illegible] generabilia [illegible] appetit se perpetuare [illegible] non est sibi possibile esse [illegible] appetit [illegible] esse in [illegible] quod appetit [illegible] in esse [illegible] [illegible].

De materia appetit formam

[illegible] quia appetitus est inclinatio [illegible] ad formam quam [illegible] tendit in id quod est sibi bonum [illegible] est [illegible] [illegible] appetitus [illegible] naturalis [illegible] [illegible] non habet formam [illegible] appetitus [illegible] appetit formam [illegible] est [illegible] quod [illegible] habet formam [illegible] appetit formam [illegible] [illegible] non [illegible] sub forma [illegible] non appetit formam quam [illegible] [illegible] formam [illegible] [illegible] in forma [illegible] quod appetit [illegible] [illegible] est [illegible] aptum natum est appetere et [illegible] formam [illegible].

Pro [illegible] quod sit appetitus [illegible] [illegible] appetitus [illegible] [illegible] [illegible] est [illegible] [illegible] delectatio et complacentia [illegible] dolor [illegible] [illegible] est quidam appetitus complacentiae quo [illegible] appetibile non appetit [illegible] est appetitus [illegible] quod appetitus complacentiae [illegible] non [illegible] appetitus [illegible] quod appetens [illegible] cognoscat [illegible] quod appetit [illegible] omne appetens [illegible] ordinat [illegible] in id quod appetit [illegible] in id quod appetit ex ordinatione et directione [illegible] cognoscentis [illegible] appetit [illegible] non ex ordinatione [illegible] ex ordinatione [illegible] [illegible] quod appetitus naturalis non est [illegible] ordinatio et inclinatio [illegible] in suum finem. Et ergo **Prima conclusio**: [illegible] appetit formam appetitu naturali. Patet ex [illegible] quia appetitus naturalis non est nisi ordinatio [illegible] in finem [illegible] forma est finis materiae [illegible] quod materia est in potentia

ad formam sive ad actum [illegible] materia appetit formam. [illegible] appetit formam absentem [illegible] appetitu desiderii [illegible] quia [illegible] appetitus est ad bonum [illegible]. [illegible] completam in forma [illegible] ipsa materia [illegible] quia complacentia [illegible] non est appetitus sed magis finis ipsius appetitus [illegible] omnis motus appetitus ordinatur in complacentiam sicut in finem. [illegible] non appetit [illegible] materia appetit formam [illegible] ad formam [illegible] ad actum [illegible] ordinatur ad [illegible] actum [illegible] materia appetit formam [illegible] appetit [illegible] formam [illegible] formam [illegible]

Dubitatur utrum sit norma forme. [illegible] forma [illegible] formam [illegible] et illa que motu acquirunt [illegible] ad [illegible] appetitu materie [illegible] quia [illegible] appetitu materie [illegible] que est [illegible] in [illegible] ab ea [illegible] differentia [illegible] ad primum dicitur appetitus est inclinatio [illegible] formam [illegible] appetitum [illegible] formam quam [illegible] non [illegible] per formam ita quod appetitus materie non [illegible] per appetitum forme [illegible] quod appetitus [illegible] est inclinatio [illegible] in suum finem. Ad [illegible] appetit [illegible] formam quam [illegible] per [illegible] formam non est [illegible] causa ideo [illegible] appetit [illegible] formam. Ad [illegible] forma [illegible] quod imperfectum [illegible] in [illegible] materia appetit formam [illegible] actum [illegible] materia non quiescit in forma [illegible] quia appetit [illegible] et [illegible] forma [illegible] actum.

sumpta dicitur esse inter maxima distantia in natura contraria, ut forma quod dicitur magnitudo et numerus. Secundo quod inter illa extrema sunt distantia media per quam ab uno extremo possit perveniri ad aliud terminum. Secundo patet quia inter contraria debet esse successio et in [illegible] quae non inter se sunt est [illegible]. Exemplum secundum quod in mutatis non est successio, patet quia unum est maxima distantia [illegible] sicut inter [illegible] per [illegible] ad [illegible]. Secundo dicitur quod illud est verum non dicitur contraria media quod sit inter media [illegible] quod contraria dicuntur quae inter unum in se et in eorum esse formali. Alia est ut in esse quod habet in natura primo quod formae contrariae instabiles sunt in specie in [illegible] non tantum sit [illegible] vehementia [illegible] eorum quod [illegible] ut unum [illegible] et [illegible] in [illegible] in medio. Secundo [illegible] contraria apparent in esse in natura sed nulla sit media. Ut sic possit dici quod inter extrema maxima distantia [illegible] possit reperire medium primum est in [illegible] utrum in motu locali. Aliud est in esse medium quod formae intendunt et remittuntur sicut inter formae albi et formae nigri mediat [illegible] et [illegible] secundum [illegible] sicut intensio et remissio. Tertio reperitur medium in [illegible] inter contraria ut inter albi et nigri [illegible] dicitur [illegible] quia [illegible] per [illegible] in medio et non [illegible]. Est ergo prima conclusio in [illegible] non est contrarietas in [illegible] quia inter formas [illegible] non sit [illegible] medium [illegible] ab una [illegible] in aliam quod non est [illegible] quia non est in medio [illegible] ut notum est, ut est in medium in [illegible] intensio et remissio quod forma substantialis [illegible] ad [illegible] per [illegible] quod forma substantialis dat esse [illegible] non intensibile et remissibile, ut reperitur medium in specie quia de qualibet forma [illegible] in qualibet esse [illegible] sunt [illegible] substantiae formae [illegible] est [illegible] quae apta est [illegible] formae. Secunda conclusio in [illegible] non est per se motus [illegible] quod motus esse per se in [illegible] non est [illegible] [illegible] esse [illegible] motu [illegible] motus [illegible] motus in [illegible] acquirunt motu. Per conclusio quod motus est inter contraria [illegible] non est contrarietas utrum ex prima conclusione [illegible]. Tertia conclusio [illegible] quod [illegible] relationis et adesse [illegible] quod esse quod [illegible] in natura. Unde [illegible] esse relatio est [illegible] fundamento ut [illegible] in esse non est [illegible] in [illegible] fundamento [illegible] relatio alterius est [illegible]. Exemplum patet quod relatio non [illegible] in suo fundamento [illegible] est in esse [illegible] non [illegible] in natura a suo fundamento. Est [illegible]. Quarta conclusio [illegible] non est per se motus, patet quod omnis motus [illegible] aliquod esse quod [illegible] in natura [illegible] esse quod [illegible]. Relatio non [illegible] esse [illegible] ut [illegible] esse [illegible]. [illegible] relatio semper [illegible] motus [illegible] motum [illegible] differentiae quod est et [illegible] motus [illegible] ut [illegible] sit alba [illegible] sit similis [illegible] ut [illegible] quia sit alba et ad hoc sit similis. Ad rationes. Ad primam [illegible] substantia [illegible] et [illegible] [illegible] quod [illegible] formas elementorum esse in mixto. Et [illegible] ad salvandum [illegible] elementa intendi et remitti. Ad secundam dicitur quod [illegible] in [illegible] et [illegible] substantiales [illegible] et [illegible] dicitur esse [illegible]. Et tunc dicitur relationem [illegible] quod [illegible] est [illegible] [illegible] non sufficit ad motum nisi sit [illegible] intensio [illegible] intensio [illegible] in [illegible] fundamento. Ad [illegible] tamen dicitur [illegible] substantia est [illegible] in [illegible] non [illegible] [illegible] relatio. Ad [illegible] patet [illegible] quod non [illegible] esse in [illegible] fundamento. Ut dicitur quod [illegible] esse [illegible] esse relativum [illegible] esse relationis est adesse.

dicit dici tamen anno in opposito est verbum in textu probatur primo predicti motus 20 d' tempore probatur primo suppono quod non est possibile aliquod mobile simul moveri et motum esse ad 2 regiones spacii quia quod in aliquo est motu tunc cessat moveri ex 6° phisicorum. Conclusio: motus non quiescit et indivisibilis probatur 9° et sit magnitudo d g ta et tamen mobile ab c super quam fiat motus d e f probatur mobile b vel ge iste motus d e z sit super totam a b c ita quod super minorem partem a b c fiat partialis motus ut ex super partibus sit partialis motus quod non quiescit est aliquid movens quod mutatum esse quod super a fiat motus tamen tunc simul est movens et mutatum quod est contra suppositum. Ergo quod super indivisibile non est motus sicut patet dicit primum quod super totam a b c fiat motus et super nulla parte non tunc aliquid esset motus quod nichil moveretur quod in fine mobile ab c esset motum et tamen numquam movebatur quia super a non super b nec super c quod est tunc motus esset 9 et non vel et in nullo. Conclusio: motus sunt divisibiles probatur 9° quod ex primo dicto magnitudo dividitur ergo sicut motus ut tamen dictum est 2e 6° probatur quod mobile sicut partialis partem magnitudinis aliquam partem sui mobilis ut ficto mobile moveatur probatur a b c magnitudinem super a tardum unam partem motus que e d et partem b ad quam d e et partem c ad quam e z ex primo sic habetur quod si esset aliquid indivisibile super partem non posset motus quia ex prima conclusione non sicut quod dicitur plures partes motus non esse 9 tamen ex indivisibilibus probatur 20 sicut quod ad ita est in prima conclusione non sicut partium 20 sumpta a magnitudine quod motus dividitur ut magnitudo ut dicitur 2a conclusio. / Ex hoc a partes motuum quod equalis velocitas sunt que in equali tempore transeunt equale spatium et in minori tempore transeunt maius spatium equale. Ex hoc sequitur quod velocius sive maius differentia in quantum ad tardius prima differentia velocius est quod in equali tempore maius spatium pertransit. Tunc secunda differentia ut a velocius transeat d e maius magnitudinem in tempore z i et d tardius magnitudinem minorem in a per eandem magnitudinem y in fine tempore z i ut d est in puncto A et d in puncto c y A sit in puncto A h c et d sunt eque velocia / sic a sit in puncto c et d in fine pars sit maior tota sed velocius in tempore equali maius spatium pertransit. Ex differentia secunda. Alia differentia velocius est quod in tempore minori pertransit maius spatium probatur differentia ut b transeat i ec velocia magnitudo c d in pertransit a velocius in tempore z i et ut d b transeat i a partes tempore partem in magnitudine utrumque c e non precedentes differentie tunc dividitur i a per que est ut c est d probatur puncta t est sic a pertransit totam magnitudinem c d in toto tempore z y quod transit partem magnitudinis sit c t in parte temporis transeat i a partem magnitudinis in parte tempore sic z k tunc a transit partem t t in tempore z k et b transit c t in tempore z y z k est pars tempore z y et c est pars tempore t t partes minoris ad totam quod sicut quod velocius sit a pertransit in minori tempore partem z k magnitudinem maiorem sit c t quam sic b tardius ut sicut in secunda sequitur. Tertia differentia velocius quod in minori tempore transit equalem magnitudinem sit differentia prima ex precedentibus differentiis in minori tempore pertransit maius pertranseat ergo a in tempore minori utrumque pars e z tam c m et b tardius pertranseat partem eius sit c t in maiori tempore quod sit h. Tunc sit ita a in toto tempore pertranseat partem c t et k z pertransit c m totam magnitudinem ergo in minori tempore pertransibit c t pertranseat a c t in tempore p b tunc pertransit equale spatium sit c t tamen tardius ut in 3a sequitur. Et nota pro ista conclusione est quod consimiliter dividitur magnitudine et si magnitudo ut sit i ta et indivisibilibus in tempore probatur 9° dicit primo per differentias eque velocium hoc per differentias velocium et tardiorum primo hoc supposito quod aliquod mobile transeat aliquam magnitudinem in aliquo tempore. Sic in magnitudo sit divisibilis ut eque velociter transeat partem magnitudinis in minori tempore sit per differentias eque velocium. Quare tardius in parte magnitudinis sit divisibile eque velociter partem in partibus transibit in parte in tempore quare tunc nec accidit ut magnitudo. Sic dividitur conclusio ex differentiis velocium et tardiorum et suppono primo quod omnis motus est in tempore. Ex hoc quod in omni tempore possibile motum 2° quod omnem magnitudinem contingit velocius moveri et tardius. Ex istis sic quod si in omni tempore aliquid movetur a velocius et b tardius. Conclusio: tunc 9° et 2 est magnitudo d sit que movetur a velocius et b tardius tamen sit in quo b transit c d sit z i. Tunc ergo velocius equale spatium transit in minori tempore ut dicitur 3a differentia sit quod a transit c d in minori tempore quod [illegible]

Communis animi conceptio est enuntiatio quam quisque probat auditam. Harum duplex est modus. Nam una ita communis est ut omnium sit hominum, veluti hanc proponas: Si duobus aequalibus aequalia auferas, quae relinquuntur aequalia esse, nullus id intelligens neget. Alia vero doctorum tantum, quae tamen ex talibus communibus animi conceptionibus venit, ut est: Quae incorporalia sunt in loco non esse, et cetera, quae non vulgus sed docti comprobant.

Precedens dicitur dictum est in predicamento [illegible] participat aliquo [illegible] et esse quod est [illegible] aliquid preter [illegible] ut corpus [illegible] calorem pulchritudinem et alia accidentia [illegible] esse nullo participat [illegible] essentia [illegible] quantitatem et essentiam. Circa predicta dubitatur

Utrum esse participat aliquo pro quo dicitur primo quod
dicitur est in predicatis [illegible] esse [illegible] substantiam seu quantitatem [illegible] substantia aliqua [illegible] et quod [illegible] quantitas [illegible] nullo [illegible] in simplicitate [illegible] nullius accidentis [illegible] susceptibile quia in actu eius formalis [illegible] [illegible] aliud quod [illegible] ad [illegible] aliquid [illegible] esse [illegible] actuale [illegible] et [illegible] non participat aliquo [illegible] aliquo participat [illegible] esse [illegible] seu [illegible] quantitatem et [illegible] ad [illegible] Dicitur secundo [illegible] esse [illegible] essentia [illegible] forma [illegible] nullo alio participat [illegible] quia omne esse [illegible] forma [illegible] non [illegible] esse [illegible] non est [illegible] in forma [illegible] et [illegible] in libro de uno et unitate. Dicitur [illegible] quia [illegible] recipit in [illegible] recipit forma et [illegible] in esse [illegible] [illegible] additamenta [illegible] tale esse [illegible] et [illegible] nullius alterius receptibile est et [illegible] quia [illegible] esse [illegible] forma [illegible] quod [illegible] ad [illegible] et [illegible] determinat alia [illegible] forma [illegible] determinat omnibus aliis predicatis quia est [illegible] omnium predicatorum [illegible] nominatur una forma et non plures [illegible] formas accidentales non [illegible] esse [illegible] quia [illegible] huiusmodi [illegible] esse substantiale [illegible] et [illegible] aliud esse [illegible] accidentale [illegible] et tale accidens [illegible] esse substantiale et [illegible] quod omnis forma [illegible] accidentalis [illegible] essentia [illegible] et [illegible] de forma [illegible] esse [illegible] susceptivum aliorum [illegible] quia [illegible] forma [illegible] ipsa forma non [illegible] susceptiva esse [illegible] susceptiva [illegible]

[illegible] Conclusio [illegible] esse non participat aliquo [illegible] quia [illegible] participat alio [illegible] forma substantialis vel accidentalis [illegible] esse non [illegible] forma substantialis vel accidentalis [illegible] ad [illegible] forma [illegible] esse non participat aliquo

Notandum [illegible] ordinem [illegible] quod [illegible] ordo [illegible] [illegible] et [illegible] forma [illegible] in [illegible] ordo [illegible] et [illegible] formas [illegible] forma [illegible] et una forma [illegible] in subiecto [illegible] accidentes

In maiori corpore semper maior est virtus. Dico quod loquendo de corporibus eiusdem speciei et simplicibus sic in maiori corpore maior est virtus, et est maior activitas quam in minori [illegible] [illegible] [illegible] quod in corporibus diversarum specierum et compositis semper sit maior virtus in maiori et sic maior aer non habet maiorem virtutem [illegible] [illegible] [illegible] activos, nec etiam in corporibus [illegible] [illegible] [illegible] [illegible] maior virtus maiori [illegible] [illegible] [illegible] [illegible] in [illegible]
